Hungarian Ministry of Education
Research and Development Division
IST Co-ordination Point

Services offered via the Hungarian IST Web

Addresses

References to organisations, organisational units in Hungary, at the European Commission, in EU Member States, in Newly Associated States and elsewhere, working with the EU 5th Framework Programme for Research, Technological development and Demonstration.

On-line Consultation

Our IST Co-ordination Point has the mission to assist potential and actual partners in IST projects to succeed in writing project proposals, searching for partners, contracting and implementing projects. Our registered partners may send us questions they need answers for on-line.

Project reference database

Our project reference database includes information regarding IST research and development activities of Hungarian entities funded by the IST programme or national research and development programmes.

Search

A search tool and a sitemap is available to assist users in finding specific information sources of interest on the IST Hungary website.

Registration

An opportunity for our clients to register themselves and their areas of interest on our IST web service in order to receive notification of relevant IST news and events. Registered users may also take advantage of additional services, such as on-line consultation.

Partner Search

In addition to referring users to the wide network of resources offered via electronic partner search services we offer assistance to those with individual needs, for which the electronic resources did not bring satisfactory results. We offer personal assistance and contacts of networks of national co-ordinators and other organisations to assist in finding suitable partners for project or project extension proposals.

Document library

The document library stores IST, FP5 and other research and development related material. It also provides access to Hungarian translations of relevant documents, to fulfill the needs of entities planning to take part or currently participating in the IST/FP5 programme. Users may view thematic collections, or perform a search in our database.
