

Introducing the Hungarian IST Web Service

<http://www.om.hu/ist> — email: ist@om.hu

The IST Co-ordination Point in Hungary

The Hungarian liaison – National Contact Point – to the IST programme operates under the Research and Development Division of the Ministry of Education. Responsibilities:

- Consultation regarding IST related topics with national groups of experts, the initiation, support and co-ordination of national, programme-level initiatives – the support of the activities of workgroups (Health telematics, e-Learning)
- Provision of information on the IST programme to interested Hungarian parties
- Support of IST project proposers – information service, consultation
- Support of the establishment of relationships with potential project partners from Member States and Newly Associated States to the 5th Framework Programme
- Support of the activities of the IST Programme Committee's Hungarian representatives appointed by the Minister of Education.
- Promotion of Hungarian participation in the 5th Framework Programme, and in IST
- Support of activities of the liaison offices
- Expression of opinions on proposals received by the Research and Development Division of the Ministry of Education that are related to the EU 5th Framework Programme

The IST Hungarian Web Service

The IST Co-ordination Point in Hungary launched the bilingual IST Web Service to assist potential Hungarian IST participants in preparing project proposals, and implementing projects. It provides its international visitors with a window on Hungarian IST activities.

About IST

This section of the Hungarian IST Web Service introduces users to the background, structure, and roadmaps of the IST programme

News

Our News section keeps visitors up-to-date on Community research and development, the IST programme, calls for proposals, IST activities and other relevant issues, and it provides links to further information. Thematic items are indexed by IST action lines. Registered users may submit potential news items of interest to the IST Co-ordination Point.

Events

Our Events database indexes events by IST action lines. Visitors may search for events relevant to their areas of interests, and Information days organized by the Commission, the IST Co-ordination Point or liaison offices.

Calls for Proposals

This section informs users of the calls for proposals open in the IST programme, and points them to documentation necessary for proposal preparation. Users may search the database for calls by action lines and keywords.

From Proposal to Contract

These pages guide proposers through the various stages of an IST project from finding partners all the way through exploitation of results. Users will find tabular summaries of useful resources, such as guidelines, necessary documents, translations, as well as links to further resources and contacts on these pages.

- How to participate and find partners
- Writing proposals
- Contracts
- Financial guidelines
- Intellectual property rights
- Project management
- Exploitation of results

Links

A collection of relevant resources and further information for visitors of the site.

FAQ and Glossary

A database of terms, definitions and questions about IST and the 5th Framework Programme.
